Summary

Senior Sales Engineer covering major accounts, with a focus on multi-cloud networking, application security, and kubernetes solutions.

Experience

05/2021 - 05/2023

F5 Distributed Cloud Services are SaaS-based security, networking, and application management services that enable customers to deploy, s ecure, and operate their applications in a cloud-native environment wherever needed–data center, multi-cloud, or the network or enterprise edge.
Cloud Solutions Engineer

Solution selling, focusing on F5 Distributed Cloud, positioning multi-cloud networking, application security and kubernetes based pipelines. In the SME overlay role I was responsible for account discovery, product presentations, demonstrations, and proof of concept, including automation with terraform across multiple clouds with on-prem datacenters. In the cloud overlay team I was responsible for architecting CICD pipeline integrations including github-actions, docker containers, argocd, jenkins, nginx ingress controller. Cloud based Web Application Firewalls, API protections, and networking application delivery with GSLB as well as anycast architectures.

- Covering financial services in North America
- Multi Cloud Networking
- Cloud Automation with Terraform
- Web App and API Protection

07/2020 - 05/2021

Technical Marketing Manager - Service Providers

Working with large enterprise customers in the Greater Toronto Area to help architect hybrid cloud architecture using F5 technology. Team collaboration, presenting technical labs and product demonstration in online webinar format as well as large in-person group events.
